

Building Knowledge Cities: The Role of Universities

Editors: Beth Perry and Tim May,
University of Salford,
Greater Manchester

Built Environment

Volume 37, number 3, September 2011

How can mutually productive relationships between universities and their host cities be developed? And what are the factors which shape university-city relationships in different contexts? This issue of *Built Environment* considers the dynamic inter-relationships between policies, places and academic institutions in the context of the knowledge-based economy.
